

Available Today – Emergency Staffing Feature Specification

This document describes the website feature for displaying professionals who are available for immediate deployment today. The goal is to increase trust, urgency, and conversion for emergency staffing requests in healthcare.

1. Homepage Section

Add a section titled 'Available Today' showing how many professionals are currently available for immediate deployment. A live counter must display the number of available professionals (e.g. 12 Available Today).

2. Display Rules

Do NOT show names, phone numbers, emails, or photos. Only show: Profession, Region/City, and Years of Experience.

Profession	Region	Experience	Status
Youth Care Worker	Limburg	8 Years	Available Today
Support Worker	Eindhoven	5 Years	Available Today
MZV Professional	Venray	10 Years	Available Today

3. Client Functionality

Clients must see a live overview of available professionals and be able to submit an emergency request via a button. Button label: 'Request Staff Now'

4. Professional Portal

Professionals can log in and mark themselves as 'Available Today'. Availability automatically expires after 24 hours unless renewed.

5. Marketing Message

Need staff urgently due to illness or shortages? View our live availability and request staff within minutes.
